# What our students say

These classes helped me gain my distinction.

I learnt how to use sources in essays and met students from other departments, which broadened my perspective.

I really enjoyed these classes. I'm a native speaker and found them insightful and motivating.

The teachers are so kind, supportive and generous and I made some great friends too - I am so grateful!

Classes were great and I had the chance to work on my own project. The teacher was very knowledgeable and fun too!

Classes were very engaging. I really appreciated how much they covered and how the ideas related to my own study.

# Registration

- To register, log in to [MySIS](#) and use the 'Module Registration' menu. Select 'I want to select/change my QM Elevate modules or view my QM Elevate module feedback'. You can register for up to **4 modules per semester**.
- You will not receive any emails confirming your booking, but you can always see all your confirmed bookings in the same module registration task in MySIS. There is at least a 48-hour delay between MySIS registration and the module appearing on QMPlus, timetable or in Teams, so register in advance.

Our registration opens on the 23rd of September!

Our classes fill up very quickly, don't miss your opportunity!
