Programme Outline

In recent years interest in the relationship between international business and (especially international) politics has increased. This new programme sets out to explore concepts, approaches and methods from a truly inter-disciplinary perspective and offers a rich and stimulating basis for postgraduate study. The degree offers a framework for exploring the changing relationship between states and markets, international institutions of global political-economic governance, transnational companies, work, geo-politics, industrialization and development.

In particular the programme will help students to develop advanced and critical understandings of the politics of international business from various intellectual perspectives, from neo-liberal and mainstream business studies approaches, through to more critical approaches which engage with questions of power and resistance. In addition, it aims to provide an advanced theoretical grounding in the core aspects, history and politics of business and its growing internationalisation, as well as to equip students with the skills to conduct rigorous empirical analysis and enquiry.

Aims of the Programme

1. To develop advanced and critical understandings of the politics of international business from various intellectual perspectives, from neo-liberal and mainstream business studies approaches, through to more critical approaches which engage

QMUL Model

Students are required to undertake the equivalent of one module (15 credits in 2017/18) per year of study which has been identified as meeting the requirements of the QMUL Model. Each of these modules has been designed to combine the best of QMUL's academic excellence with your ability to identify and develop your skills, networks and experience. This will help to ensure you become a graduate who can undertake further study or secure graduate employment in areas that interest you, and will support your ability to position yourself to find the right job or opportunity for you. The relevant module for your first year of study in 2017/18 is indicated below.

Where more than one module is specified, this is because pertinent elements from these modules have been identified as being appropriate to the QMUL Model and when studied together, deliver the equivalent content of one 15-credit QMUL Model module.

The QMUL Model modules for future years and associated Learning Outcomes will be identified as your studies continue.

Should Professional, Statutory and Regulatory Body requirements apply to your programme of study, these will be taken into account in the specification of QMUL Model requirements.

How Do We Listen and Act on Your Feedback?

All schools operate an Annual Programme Review of their taught undergraduate and postgraduate provision. The process is normally organised at a School-level basis with the Head of School, or equivalent, responsible for the completion of the school's Annual Programme Reviews. Schools/institutes are required to produce a separate Annual Programme Review for undergraduate programmes and for postgraduate taught programmes using the relevant Undergraduate or Postgraduate Annual Programme Review pro-forma. Students' views are considered in this process through analysis of the module evaluations.

Students may also speak with or write to the Programme Director or Director of Postgraduate Taught Programmes about their issues and concerns or to provide feedback.

The Staff-Student Liaison Committee (SSLC) provides a formal means of communication and discussion between schools/institutes and its students. The Committee consists of student representatives from each programme in the School together with appropriate representation from staff within the school. It is designed to respond to the needs of students, as well as act as a forum for discussing programme and module developments. The School's Staff-Student Liaison Committee meets formally once

each semester. The minutes of the meetings are published to the School and the action points for these are noted and responded to accordingly.

Feedback from SSLC meetings, module evaluations and the PTES results are also considered by the School's Teaching and Learning Committee which has oversight on matters relating to the delivery and quality of taught programmes at School level.

Academic Support

Students take part in a School wide induction programme. They will have a designated Academic Advisor as well as a designated dissertation supervisor, both of whom will meet with the students on a regular basis. The School has a Senior Tutor for MA students who will also be available to see students.

Students are also kept informed about support and help available either within the school, such as dedicated personal adviser weeks, or support workshops organised by Advice and Counselling at QM or the Language and Learning Unit, via the postgraduate administrator and School office.

Programme-specific Rules and Facts

The programme will be academically managed jointly by both Schools premised on a co-convenorship model. Overall academic management of the programme will be the responsibility of the designated members of staff from both SBM and SPIR. It will be their responsibility to oversee admissions, course and programme development, assessment and quality assurance, in association with the relevant School Teaching and Learning Committees and Graduate School Committees. In delivering these functions, the programme convenors will work closely with the School and Postgraduate Administrators and other relevant Schools within the College. All students enrolled on this programme will be allocated an Academic Adviser, who will be available throughout the year to provide academic as well as pastoral support. Module convenors and other members of staff will also be available at designated times each week to see students and to discuss academic issues relating to their particular courses. All students will also be allocated a supervisor for their dissertations, which will require a minimum of 3 meetings. The administrative side of the programme will ultimately be located in SPIR, who will deal with Exam Board issues, admissions and marketing (in academic collaboration with SBM).

Progression and awards will be dealt with by the Post-graduate Subject Examination Board in SPIR (a designated SBM rep will attend the Board meetings). In accordance with School policies and practice, all assessments will be moderated internally, and a sample will be sent to the External Examiner for the programme for external moderatio.

Specific Support for Disabled Students

Queen Mary has a central Disability and Dyslexia Service (DDS) that offers support for all students with disabilities, specific learning difficulties and mental health issues. The DDS supports all Queen Mary students: full-time, part-time, undergraduate, postgraduate, UK and international at all campuses and all sites.

Students can access advice, guidance and support in the following areas:

- Finding out if you have a specific learning difficulty like dyslexia
- Applying for funding through the Disabled Students' Allowance (DSA)
- Arranging DSA assessments of need
- Special arrangements in examinations and guidance for examiners
- Accessing loaned equipment (e.g. digital recorders)
- Specialist one-to-one study skills tuition
- Ensuring access to course materials in alternative formats (e.g. Braille)
- Providing educational support workers (e.g. note-takers, readers, library assistants)
- Access to specialist mentoring support for students with mental health issues and Autistic Spectrum Disorders.
