

Lunch Box.

Every bag sold provides a meal for a child.

Following in the footsteps of the Meru Farm project, Lunch Box coffee was created to support the children of the farmers in coffee-growing countries around the globe. We wanted to create a coffee that would preach direct trade and support the families that work so hard to grow our coffee.

Lunch Box provides school meals for children in coffee growing regions, so they can focus on studying and not where their next meal will come from. Now that's Fuelling Ambition. Literally.

Lunch Box.

Every bag sold provides a meal for a child.

Tasting notes:

DRIED FRUIT · BLACKCURRANT · ALMOND

100%

Community-driven, craft coffee.
